

# John kenneth Teodoro

## Front-end Developer

As a front-end developer, I create immersive and user-friendly web experiences using HTML, CSS, Bootstrap, and basic JavaScript. My meticulous attention to detail and commitment to clean, maintainable code enable me to design visually stunning and responsive websites that deliver optimal user experiences. I thrive in fast-paced, collaborative environments and am eager to work with experienced developers to continue developing my skills.

## Education

2019 - 2023

**Bachelor of Science in  
Information Technology**

Bestlink College of the Philippines

2016 - 2018

**Information Communication  
Technology**

Asian Institute of Computer Studies

## Expertise

- HTML
- CSS
- BOOTSTRAP
- JAVASCRIPT
- PHP

## Experience

○ 2022 - 2023

Bestlink College of the Philippines

### Programmer (4th year College Student)

As the programmer for my capstone project, I designed and executed a Logistic Management System using PHP for the backend, MySQL for the database, and HTML, CSS, and JavaScript for the user interface. I handled all aspects of the system's development, including writing, maintaining, and optimizing the code for the database, user interface, and backend functionality. To ensure the system's accuracy, reliability, and user satisfaction, I conducted regular testing and debugging. Collaborating with my team members, I addressed issues, improved system performance, and enhanced the user experience.

○ 2021 - 2022

Bestlink College of the Philippines

### Project Manager (3rd year College Student)

As a Project Manager for a School Management System project during my 3rd year in college, I successfully led a team of 4 members in planning and executing the project within scope, budget, and timeline. I managed project resources and monitored project progress, addressing any issues that arose during the project. Additionally, I developed and maintained project documentation, demonstrating my organizational and communication skills. Through this experience, I demonstrated strong leadership, communication, and collaboration skills, fostering an environment that encouraged creativity and innovation.

○ 2016 - 2017

Barangay Balara Quezon City

### Encoder (Internship)

As an encoder in Barangay Balara Quezon City, I was responsible for encoding and maintaining accurate records of barangay transactions and activities. I ensured the accuracy and completeness of data entered into the system and prepared reports, as well as responded to inquiries from constituents regarding barangay activities and services. In addition, I collaborated with other barangay officials to ensure timely and accurate reporting of data. Through my work, I improved data management processes and increased efficiency of encoding and record-keeping. Regular interaction with constituents and colleagues helped me develop strong communication skills.
